

## Noodletools - the short version

Log in at **Noodletools.com**, using your Ranney Google credentials

Create a Project :

Level = Junior

Format = MLA

Add a new source :

Where is it?

What is it?

Fill in the blanks, then Save

Your sources will be in a list on your Project page.

Export/Print when you're done

EXAMPLE: a photo that you have found on Google Images

Add a New Source

Where? Website

What? Photo or Image

Fill in the blanks:

Name of container website (the site where you found it - Google Images)

URL (webpage where the photo *lives*)

Date of access (when you saw it)

You can skip the artist's name if you don't know it, or enter it here

Type of image - photograph

Title - if you don't know it, create a short descriptive title for the photo

This is what it will look like:

Sumerian Writing. *Google Images*, [www.ducksters.com/history/mesopotamia/sumerian\\_writing.php](http://www.ducksters.com/history/mesopotamia/sumerian_writing.php). Accessed 16 Nov. 2022.
